Dear Khue, Dear Neil,

The six attached documents will be submitted via the portal tomorrow, for the attention of Khue, with a copy to Reuben Baris. As promised, I am providing copies for you to distribute to the August 2nd meeting attendees from PRD and HED.

- Cover letter
- Monsanto Glyphosate Manufacturing Industrial Hygiene Monitoring Data, Luling, Louisiana, USA
- Mortality Surveillance Results for the Luling Plant 1980-89
- List of relevant studies to evaluate immunotoxicity
- *DRAFT – Lymphoma risk and pesticide use in the Agricultural Health Study*, Alavanja MCR, DrPH, *et al.*, printed 12/05/2016, produced to Monsanto during personal injury litigation
- 03/20/17 Deposition of Aaron E. Blair, PhD, a listed author of the above DRAFT Report, which provides context for the report's findings re: glyphosate (taken in above-noted personal injury litigation, with p. 82-85 removed due to confidentiality provisions)

Thanks very much indeed. Don't hesitate to contact me if you need clarification.

Kind regards,

Amelia
